of the same kind as the
one in the first case, but
the second case is more
difficult to handle.

Handwritten text, likely bleed-through from the reverse side of the page. The text is illegible due to the quality of the scan and the nature of the bleed-through.

21544

2000 ft
at the top of the
cliff is a small
cave. It is
about 10 ft
high and 5 ft
wide. It is
filled with
rocks and
bones. The
bones are
of various
sizes and
shapes. Some
are small and
fragile, while
others are
large and
heavy. The
rocks are
of various
sizes and
shapes. Some
are small and
fragile, while
others are
large and
heavy.

The bones are
of various
sizes and
shapes. Some
are small and
fragile, while
others are
large and
heavy. The
rocks are
of various
sizes and
shapes. Some
are small and
fragile, while
others are
large and
heavy.

[Faint, mostly illegible handwriting]

[Faint handwritten notes at bottom left]

Handwritten text, possibly a list or index, with several lines of cursive script. The text is partially obscured by a dark, irregular smudge or ink blot.

Handwritten text, possibly a signature or a small note, located below the first block of text.

Handwritten text, possibly a list or index, with several lines of cursive script. The text is partially obscured by a dark, irregular smudge or ink blot.

Handwritten text, likely a list or notes, written in cursive script. The text is oriented vertically on the page.

Handwritten text, likely a list or notes, written in cursive script. The text is oriented vertically on the page.

Handwritten text, likely a list or index, with several lines of illegible script. The text is arranged in two columns, with some lines starting with numbers or letters. The handwriting is cursive and difficult to decipher.

21697

Handwritten notes, mostly obscured by heavy black ink blotches.

Handwritten notes, mostly obscured by heavy black ink blotches.

21917

Handwritten notes, mostly obscured by heavy black ink blotches.

Handwritten text, likely a list or inventory, written in a cursive script. The text is arranged in several columns and appears to be a detailed record of items or quantities.

Handwritten notes or a signature, possibly indicating a date or a specific entry.

Handwritten text, possibly a list or inventory, written in a cursive script. The text is arranged in several columns and appears to be a detailed record of items or quantities.

Handwritten text, possibly a list or inventory, written in a cursive script. The text is arranged in several columns and appears to be a detailed record of items or quantities.

25502

Handwritten text, likely a list or inventory, written in a cursive script. The text is partially obscured by a dark, irregular smudge or ink blot.

Handwritten text, likely a list or inventory, written in a cursive script. The text is partially obscured by a dark, irregular smudge or ink blot.

25501

Handwritten notes in a cursive script, likely a form or record, with several lines of text.

25519

Handwritten notes in a cursive script, likely a form or record, with several lines of text.

21675

Handwritten text, likely a list or inventory, written in a cursive script. The text is arranged in several columns and appears to be a detailed record of items or measurements. The handwriting is somewhat faded and difficult to decipher in many places.

[illegible]

[illegible]

The above is a list of the
 names of the persons who
 have been appointed to
 the various committees
 of the Board of Directors
 of the City of New York
 for the year 1901.

1. The first part of the paper is a
 letter from the author to the
 editor, in which he states that
 he has received the manuscript
 and is pleased to hear that
 it is of interest to the
 readers of the journal.

Handwritten text, possibly a list or notes, located at the top of the page.

Handwritten text, possibly a list or notes, located in the middle of the page.

Handwritten text, possibly a list or notes, located at the bottom of the page.

1. The first of these is the
 fact that the number of
 cases of the disease has
 increased in the last few
 years. This is due to the
 fact that the disease is
 more common in the
 tropics than in the
 temperate zone.

The second of these is the
 fact that the disease is
 more common in the
 tropics than in the
 temperate zone. This is
 due to the fact that the
 disease is more common
 in the tropics than in the
 temperate zone.
